AUSTRALASIAN COLLEGE OF
SPORT AND EXERCISE PHYSICIANS

ABOUT THE **EVENT**

WELCOME MESSAGE

I am delighted to launch the Australasian College of Sport and Exercise Physicians Annual Scientific Conference to be held in picturesque Queenstown, New Zealand, from February 8-10, 2019. Once again, the College has convened a world class faculty of pre-eminent international and local expert keynote speakers in Sport and Exercise Medicine including Professor Claude Bouchard, Dr Lindsay Hall, Dr Kimberly Harmon, Dr Ra Durie and Professor Jiri Dvorák. The 2019 program will explore Genetics, Gut Biohme, Cardiology, Injury Prevention, Osteoarthritis, Concussion and many more exciting topics.

The scientific conference offers a broad range of stream and workshop options, including regional musculoskeletal issues; advances in Sports Cardiology; WADA & NADO updates; Doctors Mental Health; Professional Development; Cultural Safety and an exploration of the more obscure range of sports and associated injuries. Our highly popular Management of Sporting Trauma (MOST) and Musculoskeletal Ultrasound for Sport and Exercise Physicians Course will also be offered in the 2 days following the Scientific Conference.

This is a unique opportunity for the Global Sport and Exercise Medicine community; Sport and Exercise Physicians, Sports Doctors, General Practitioners, Registrars, Medical Students and other specialties to meet face to face in the ideal environment that Queenstown provides.

A record number of domestic and international delegates and exhibitors made our 2018 High Performance Medicine Scientific Conference on the Gold Coast in Australia the biggest and best Conference ACSEP had hosted. I am confident that our 2019 Queenstown Conference will top this and leave all delegates with many wonderful practice pearls, memories, new friends, and even an adrenaline rush!

We invite your company's participation as a sponsor or trade exhibitor and look forward to welcoming you to the magnificent lakeside adventure town of Queenstown in February 2019.

Warm Regards,

Adam Castricum
ACSEP President

ACSEP ANNUAL SCIENTIFIC CONFERENCE
FEB 6TH -12TH 2019

ABOUT THE ACSEP

THE AUSTRALASIAN COLLEGE OF SPORT AND EXERCISE PHYSICIANS (ACSEP) IS THE PROFESSIONAL BODY REPRESENTING SPORTS AND EXERCISE PHYSICIANS IN BOTH AUSTRALIA AND NEW ZEALAND.

Sports and Exercise Physicians are committed to excellence in the practice of medicine as it applies to all aspects of physical activity.

Safe and effective sporting performance at all levels is a major focus. Alongside this is the increasing recognition of the importance of exercise in the prevention and treatment of common and often serious medical conditions, such as arthritis, heart disease, diabetes , many cancers and mental illness.

Exercise has increasingly been shown to supplement traditional measures such as rest, medication and surgery, often with less reliance on these in the treatment of many chronic health conditions. It can certainly help improve recovery and in turn, long term outcomes.

The ACSEP will continue to uphold and advance world leading training and practice in the specialty of Sport and Exercise Medicine. We are perfectly positioned to lead and promote the incorporation of exercise and physical activity into the daily lives of all members of the community, whether healthy or unwell.

We will continue to work closely with our peak sporting bodies and teams, medical and allied health colleagues, as well as the greater community to keep us all active and healthy.
